Iconoclast
THE WEEKLY NEWSPAPER OF DALLAS

Sunday, June 8, 1975

Dear Harold Weisberg,

Enclosed are copies of those photographs that you requested. They are copies of copies and not as clear as I would like. The "F.B.I." agent--that's how retired Dallas Police Cheif Jesse Curry (who recently had two heart attacks) tags the man bending over in his book JFK ASSASSINATION FILE, page46; these pictures seem to me to be doctored--even in Curry's book where there is a clear photograph (it's by another photographer).

Have not had time to check on book printings but will next week. How many copies do you want on a minimum order and how many pages?

Best wishes,

Doug D. Baker
